

**Notice**

## Registration on UTask-Web Using Smartphone

Although a number of students use smartphones for registering courses, etc., it is difficult to verify whether all kind of smartphones work properly on UTask-Web.

Thus, online registration using your smartphone could fail to be completed normally.

To avoid such problems, you should log out of the system once after you finish your registration, then log in again and make sure to reconfirm that the courses entered appears on the screen.

During the review period set below, **confirming and correcting your course registration should be performed using a personal computer, if possible.** If you have any inquiries relating to confirmation or correction of your registration, contact the PEAK/GPEAK Section, Academic Affairs Division (counter no.2) within the below period. Please note that changes cannot be accepted after the deadline.

May 16(Thu.) 9:00a.m. ~ May 17(Fri.) 4:30p.m.  
for confirmation/correction (**Year 1**)
