**II. From the International Student Section**

**1. Residence Status – Change of Status of Residence/Extension of Period of Stay**

The remaining period of your stay will expire as soon as you cease the designated activity. In principle, you must either leave Japan within a reasonable timeframe or change your status to an appropriate one (e.g., change to "Temporary Visitor" if you need more time to prepare for your departure, or to "Designated Activities" if you intend to continue seeking employment). If you remain in Japan as a "student" without engaging in student activities, your residency status might be revoked.

- If you secure employment, please consult your prospective employer regarding your visa requirements.
- If you enroll in another school in Japan immediately after graduation, you must report the change to the Regional Immigration Bureau within 14 days of your enrollment.

**When Leaving Japan After Graduation**

Please remember to return your residence card to the immigration officer at the port of

departure (airport).

### **“Designated Activities” Status**

Graduating students who were seeking employment prior to graduation are eligible to apply for a change of status to "Designated Activities." There are two types of "Designated Activities" statuses available:

- Designated Activities (J-Find)
- Designated Activities (to continue job-hunting)

If you wish to apply for a letter of recommendation for Designated Activities (to continue job-hunting), please consult with the International Student Section by Thursday, August 6, 2026. **Important: The College of Arts and Sciences cannot issue a letter of recommendation after graduation.** For additional information, please visit the official website of the Immigration Services Agency of Japan.
