

【For students who were advanced to the Senior Division before March 2022】

## **Replacing Courses Newly offered in The International Program on Environmental Sciences**

The following courses will be newly offered in the International Program on Environmental Sciences of the Department of Interdisciplinary Sciences from April 2022.

If students who were advanced to the Senior Division before March 2022 take these courses, they will be replaced as follows.

Courses after replacement (Applied to students advancing to March 2022 or before)		Newly established courses( Applied to students advancing to April 2022 or later)	
Course Title	Credits	Course Title	Credits
Materials Chemistry I	2	Organic Chemistry	2
Materials Chemistry II	2	Inorganic Chemistry	2
—	—	Environmental Measurement III	2
—	—	Materials, Systems and Dynamics V	2

※ "Environmental measurement III" and "Materials, Systems and Dynamics V" will not be replaced, and will be included in other courses in other departments and faculties.

Also, there will be no offering of these courses in 2022.

April 2022
