

April 2016

Announcement to Environmental Sciences 3rd-year October-entry students  
Guidance and laboratory review session for the Graduation Project

We will have a guidance and laboratory review session for the Graduation Project, as described below. The Graduation Project is one of most important requirements in the ES senior division program. ES-course 3rd-year October-entry students are strongly encouraged to attend the session, where important information about the project, and potential laboratories and research topics will be explained in details.

Guidance and Laboratory Review Session for the Graduation Project

Date: June 1, 2016, Wednesday

Time: 18:00 to 20:00 pm

Room: 21KOMCEE 3<sup>rd</sup> floor K301

During the weeks following this session and before early July, the professors are accepting your visit to their laboratories. Please be advised that visiting a professor and his/her laboratory should be arranged well in advance by making an appointment. Contact information of each professor will be given at the above session.
