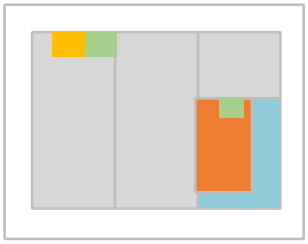
＜Second-Year Students（enrolled in or before AY2024）＞

How to read the Grade Report for 2A Semester



UTAS: Log in＞Grade>Junior Division>Check Status of Evaluation>Create PDF

1. Required Credits /Credits Gained/ Further Credits Required

“Required Credits”：Course and credit requirements for completion of the Junior Division, and advancing to the Senior Division. (Please refer to PEAK Academic Handbook P.18.）

- If you do not fulfill the requirements for advancing to the Senior Division at the end of the 2S Semester, you will be automatically required to repeat a year.

“Credits Gained”： The credits you have gained by the end of 2A Semester.

- The credits for courses passed by the overall point average are included.
- If you have gained credits more than the number of Required Credits, they will be included in “Others” section.
- The gained credits for English I and Intermediate Courses are included in “Others” section.

“Further Credits Required”： The credits required to gain for advancing to the Senior Division.

- These are shown only when you do not have enough credits for the requirements.

2. Percentage Point Averages for Each Course Group, and Basic Point Average

Percentage Point Averages and the number of credits for courses (whose grade points have been) used in the calculation of Basic Point Average will be recorded on the Grade Report.
Please note that the “Basic Point Average” indicated in “Percentage Point Averages” section is a weighted average and based on the credits and grade points received from all courses taken except for Thematic Courses and courses evaluated on a Pass/Fail basis.
For details, see the following pages on “Introduction of Basic Point Average”.

3. Courses that Determine Pass/Fail by Overall Point Average

Check your overall point average and Pass/Fail from the “Credits Gained” section for each course category, or grades for each course category on the left side of the Grade Report.
For further information, refer to p.62 of the PEAK Academic Handbook.

4. ”Course Term” on the Grade Report

“Course Term” shown on the Grade Report indicates the term when the course was offered. Courses for A1 Term will be “25.10～25.11”, courses for A2 Term will be “25.11～26.01”, and courses for A Semester will be shown as “25.10～26.01” on the grade report.
For Senior Division Courses, the grades will appear on UTAS after you have advanced to the Senior Division.

To PEAK Junior Division Students

Introduction of Basic Point Average

From the S Semester 2018, the Basic Point Average (*Kihon Heikin-ten*), a weighted average, will appear on your transcript at the PEAK Junior Division to substantiate credits requirements for completion of Junior Division Program. Based on credits and grade points received from all courses taken except for Thematic Courses, the calculation method below will be used in the same manner as for April-entry students:

$$\text{Basic Point Average} = \frac{\text{the sum of (grade points * credits * weight}^{1)})}{\text{the sum of (credits * weight)}}$$

1.: Weight for respective course taken

When calculating the Basic Point Average, courses, credits and weights will be set as follows:

① Courses shown in the table below will be given a weight of 1.

<table>
<tr><th colspan="3">Course Category \ Stream</th><th>HS III
(PEAK)</th><th>NS II
(PEAK)</th></tr>
<tr><td rowspan="9">Foundation Courses</td><td colspan="2">Foreign Languages</td><td>Japanese</td><td>6</td><td>6</td></tr>
<tr><td colspan="3">Information</td><td>2</td><td>2</td></tr>
<tr><td colspan="3">Physical Education and Health Sciences</td><td>1</td><td>1</td></tr>
<tr><td colspan="3">First-Year Seminar</td><td>3</td><td>3</td></tr>
<tr><td colspan="3">Social Sciences</td><td rowspan="2">12 credits with the highest points</td><td rowspan="2">4 credits with the highest points</td></tr>
<tr><td colspan="3">Humanities</td></tr>
<tr><td colspan="3">Mathematical Sciences</td><td rowspan="2"></td><td>8</td></tr>
<tr><td colspan="3">Material and Life Sciences</td><td>8</td></tr>
<tr><td rowspan="7">Integrated Courses</td><td colspan="3">L. Languages and Communication</td><td>4 credits with the highest points</td><td rowspan="3">4 credits with the highest points</td></tr>
<tr><td colspan="3">A. Ideas and Arts</td><td rowspan="6">12 credits with the highest points</td></tr>
<tr><td colspan="3">B. International and Area Studies</td></tr>
<tr><td colspan="3">C. Society and Institutions</td></tr>
<tr><td colspan="3">D. Human Beings and the Environment</td><td rowspan="3">12 credits with the highest points</td></tr>
<tr><td colspan="3">E. Matter and Life</td></tr>
<tr><td colspan="3">F. Mathematical and Information Sciences</td></tr>
</table>

② Credits earned from Foundation Courses in excess of the table will be given a weight of 0.1.
③ Intermediate Courses and/or Integrated Courses registered in excess of the table will be given a weight of 0.1.
④ Courses evaluated on a “Pass” or “Fail” basis will not be included in the calculation of the Basic Point Average, unless otherwise stipulated.
⑤ Points for courses graded as “Fail ” will be included in the calculation of the Basic Point Average. Also, 0 points for courses graded as “Absent” will be included. If any courses for credit in the table have not been registered at the end of 2S Semester, [credits * 0 point] will be included.
⑥ For Integrated Courses, when calculating the Basic Point Average, if a student takes courses in excess of the limit such that a particular 2 credit course both fulfills and exceeds the limit, then only the first credit up to the limit will be given a weight of 1, and all further credits will be given a weight of 0.1.
⑦ For “Sports and Fitness Exercises I (PEAK)”, “Sports and Fitness Exercises II (PEAK)” , “Sports and Fitness Exercises (April-entry)”, or “Sports and Fitness Exercises II (April-entry)”, a maximum of two credits will be given a weight of 1. In addition, a maximum of one credit will be given a weight of 0.1.
⑧ When repeating a year upon the conclusion of the second-year, credits for Foundation Courses, Intermediate Courses and Integrated Courses registered in the 2S Semester (2S1 / 2S2 Term) will be included in the calculation of the point average for Senior Course Selection (*Shingaku Sentaku*) in the following year. In addition, points for courses taken after repeating a year will be included in the calculation of the point average.
⑨ When repeating a year, any Intermediate Course/s and/or Integrated Course/s registered before repeating the year and graded as “Absent” will not be included in the calculation of Basic Point Average.
