

To all students:

PRECAUTIONS FOR SUMMER VACATION

Summer vacation has arrived, and with that, more opportunities to participate in activities both on and off campus. With this in mind, the Student Support Division would like to call attention to some precautions.

Heat Stroke

Now that rainy season is over, many people will be more prone to suffering from heatstroke. In order to prevent heat stroke, stay hydrated by drinking water before getting thirsty, wear a hat or use a sun umbrella, and wear cool clothing. Be conscious of the heat, and do not take unreasonable measures when it's especially hot.

Alcohol

There have been student incidents reported involving alcohol.

First and foremost, do not drink if you are underage, and do not give drinks to underage persons.

Excessive drinking can endanger lives and cause serious accidents. If you are of age and decide to partake in drinking activities, be sure to drink in moderation. Do not drink in excess.

If the issue should arise that someone drinks in excess, do not leave him or her alone. Take appropriate measures by contacting the Student Support Division or the Gatehouse on campus, calling the ambulance, or taking adequate care of him or her.

Cult Groups

Many cult groups and scam groups disguised as concerts, athletic teams, study groups and private organizations have been invading the Komaba Campus, targeting students to join their organizations. Take cautionary measures before joining any suspicious groups.

In order to not become a victim, take note of the points of caution below:

- Cult groups do not necessarily advocate religion.
*They can be scam groups disguised as study groups or athletic groups.
- Confirm the identity of the person and the name of the group.
- Do not give out your personal information, including your phone number and email address.
- Ignore or decline any offers.

Campus Hours

After-school activities on the Komaba Campus may be held until 9 PM. Be sure to leave promptly after the designated time.
